

Specialty Chemicals & Reliability Products

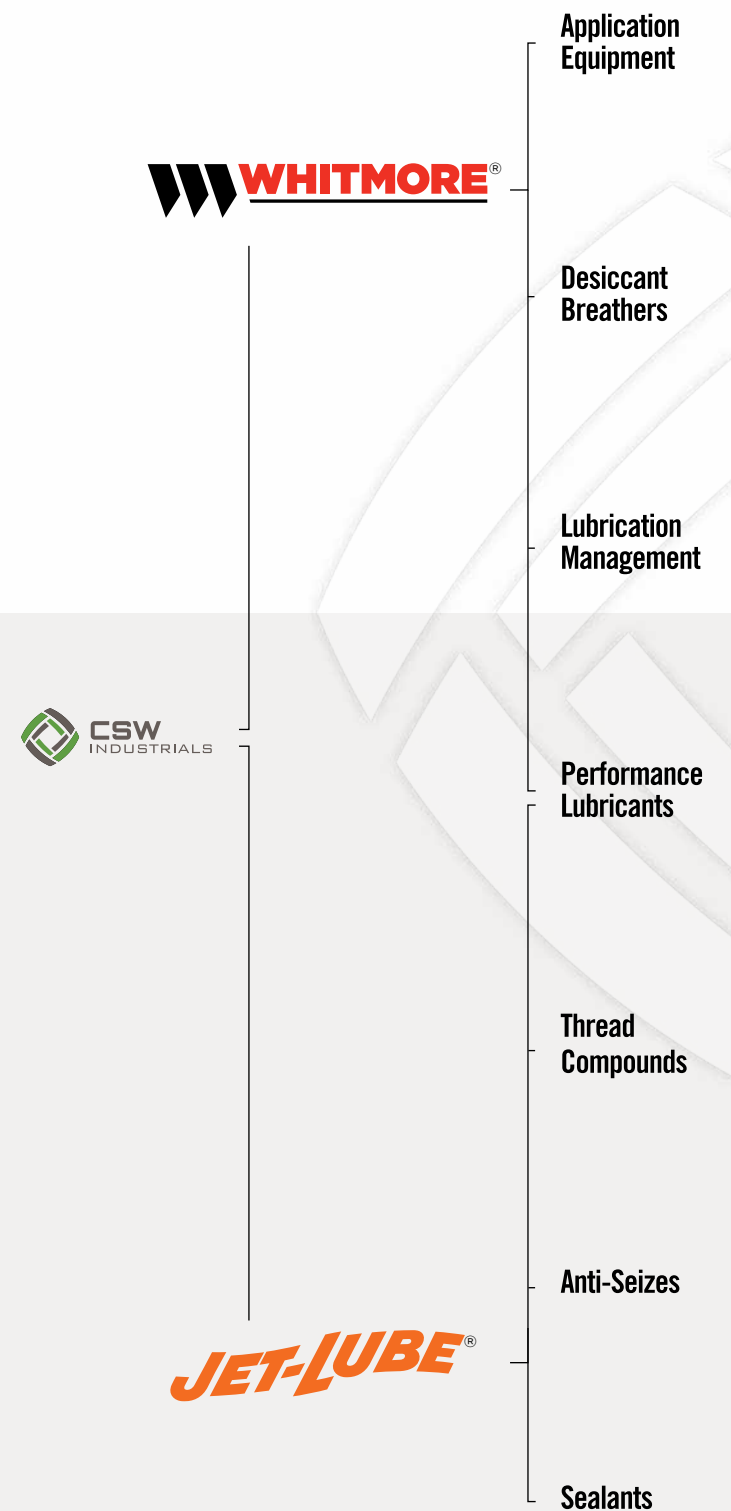

With over 190 combined years of experience, Whitmore® and Jet-Lube® are global leaders in providing innovative products and services that increase the reliability, performance and lifespan of industrial assets. We manufacture high-performance lubricants, anti-seizes, thread compounds, sealants, application equipment, lubrication management products, desiccant breathers, cleaners and degreasers designed to meet the specific needs of each industry and application. Customers throughout the world rely on Whitmore and Jet-Lube to deliver the performance engineered solutions industry counts on, even in the most adverse conditions and demanding environments.

Our family of products and services are sold worldwide through a distribution network committed to technical support and total customer satisfaction. Whitmore and Jet-Lube are headquartered in Rockwall, Texas, with a fully integrated manufacturing plant, leading-edge research and development center, training facility and corporate offices.

Whatever your application, Whitmore and Jet-Lube have the right product to solve your lubrication needs, saving you time and money.

Whitmore® and Jet-Lube® are subsidiaries of CSW Industrials.

Better Together

CSW Industrials, Inc. is a diversified industrial growth company with well-established, scalable platforms and domain expertise across three segments: Industrial Products, Coatings, Sealants and Adhesives, and Specialty Chemicals.
