OilSafe® Bulk Systems and Portable Filter Carts are now CE Certified

We are pleased to inform you that OilSafe Bulk Systems and Portable Filter Carts are now CE Certified and will include the “CE” approval identification on each product.

CE marking is a certification mark that indicates conformity with health, safety, and environmental protection standards for products sold within the European Economic Area. The CE marking is also found on products sold outside the EEA that are manufactured in, or designed to be sold in, the EEA.

Here’s an example of what the CE label/markings will look like on our products.
